

Intranet Front-end Development

Give intranet users an optimal experience through robust intranet web development

To give your intranet users an excellent experience, the platform must be robust and reliable. We work with your IT department to provide high-quality front-end development of your new intranet.

THIS SERVICE HELPS TO...

Create the intranet experience for your audience as intended

Deliver high quality front end code

Provide a development team experienced at working with in-house teams

WHAT YOU GET

Highly tested front-end design that:

- ✓ Encourage focus on development of back-end code
- ✓ Early visibility in end user experience
- ✓ De-risk your design investment
- ✓ We work in HTML, CSS (Plain, Sass), Bootstrap, jQuery, JavaScript, Angular, Angular-Ionic, React, ASP.NET, WPF, C#, CMS: WordPress, Umbraco, Drupal, ask us!

Intranet Front-end Development

HOW WE DO IT

- 1** We start with understanding the intranet design requirements and set up of code environment.
- 2** We carefully develop the front-end code to design specification.
- 3** We perform QA and accessibility requirement verification on all relevant devices, browsers, and resolutions.
- 4** We provide documentation, training and handover of front-end code to the back-end team.
